

HealthRightsMA.org

**Health Rights MA was founded Jan 2021
as a committee to draft and file
proactive “right to refuse” health freedom legislation**

Health Rights MA is a 501 c4 nonprofit lobbying organization

The mission of Health Rights MA is to ensure that the fundamental human right to bodily autonomy—including the right to exercise informed consent and the right to privacy of personal medical information—is legally protected in the Commonwealth of Massachusetts in regard to all medical/healthcare treatments and procedures.

Here's what's happening across the nation

- 910 Right to Refuse (RTR) bills filed since 2020
- 210 news bills filed since the start of 2023
- 48 states have filed at least one RTR bill
- 72 RTR bills have passed into law in 28 states

**January
2020**

**February
2023**

Has not yet

introduced a Right to Refuse bill

Has introduced

at least 1 Right to Refuse bill

Has passed

at least 1 Right to Refuse law

- Illustrates huge rapid movement across the nation of ***citizen driven legislation***
- MA can collaborate and learn from other states working towards the same goal of protecting bodily autonomy.

Right to Refuse Bills

Massachusetts SD2014
No person shall be compelled to acquiesce to medical treatments or procedures, including by employer mandate. Civil remedies. Reasonable non-invasive testing or treatment allowed. A "Non-invasive" is a test or treatment in which the body is not penetrated or entered by a needle, tube, device, swab, or scope, or one in which no substance is administered orally or otherwise.

Massachusetts HD2390
Proof of COVID-19 vaccine not required for entry to: public buildings; public or private elementary school, secondary school, high school, charter school, college, university or other post institution of higher education; private business employee; public accommodations

Massachusetts HD1423
No person may be compelled to receive an immunization in order to secure, receive, or access any public benefit, or any public service from the Commonwealth of Massachusetts or any public entity. State entity may establish COVID-19 passport.

Massachusetts HD1602
Medical exemption for school vaccinations with Certificate. Parents who state in writing that their religious beliefs obtain exemption for child. Prohibited for physicians.

Bills that have passed
There are currently no passed bills for this state.

**3 BILLS HRMA focused on
2 ALREADY SPONSORED;
1 STILL SEEKING A SPONSOR**

- **S.1094** (was SD 2014) : An Act relative to bodily autonomy and family integrity

Senator Patrick O'Connor – Lead Sponsor

- **H.734** (was HD 2390): An Act prohibiting COVID-19 vaccination as a condition of entry

Rep. Peter Durant – Lead Sponsor

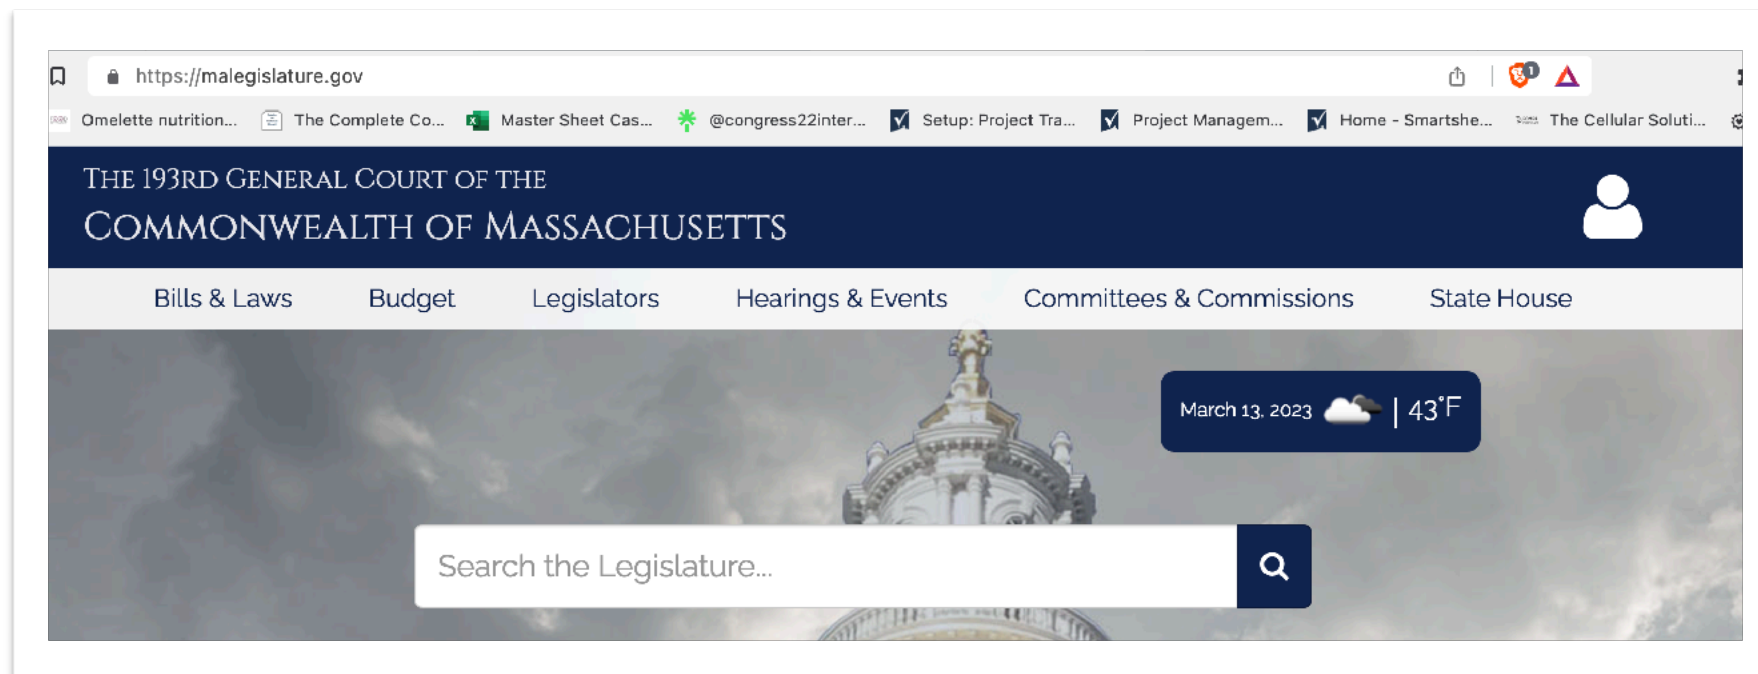

- Right to refuse medical procedures that may alter your genetics **No sponsor yet. It will be a “late file”**

There are also other good bills and several dangerous bills

Actual full bill language can be found at the of this presentation

Massachusetts Legislature Basics

- There are 160 Representatives and 40 Senators elected to the MA legislature. You have one of each.
- MA legislature website: <https://malegislature.gov/> You can find: your legislators, bills, current law, committees, hearings and track bills as they move. You can even create an account and then favorite bills. You will get a notification every time there is any status update.
- The legislative session in MA is 2 years.
- We are in the 1st year of a 2 year session. (2023-2034)
- Bill Numbers will change more than once during the life of the bill as the bills move forward.
- All bills filed on time get 1 public hearing in their first committee. No hearings scheduled yet. It could be anytime between April and November.
- Keep in mind MA legislature hears over 6000 bills a year. Each has 100's of bills on their plate. Focus on the bill. Legislators care about what the bill in front of them will do, exactly as it is written on the page. And that is really all they have control over. They can work to draft a bill, support or co-sponsor a bill, amend a bill by changing the language, or work to stop a bill they don't like. Understand what a bill says and does before you meet. These bills are both short and easy to understand.

S.1094 (was SD 2014)
**AN ACT RELATIVE TO BODILY AUTONOMY
AND FAMILY INTEGRITY**

If [your legislator](#)
is on this
committee please
reach out to us!

Senator Patrick O'Connor - Lead Sponsor
Ryan Fattman and **F. Jay Barrows** Co-sponsors
Referred [Joint Committee on Judiciary](#) - No hearing scheduled

- The bill prohibits mandatory medical treatments/procedures against a person's will, as well as compulsory collection of specimens, sharing of personal data and medical information, including but not limited to - in both educational and work settings.
- It prevents employers from declining to hire or from terminating a person solely on the basis of their choice to engage or not engage with a medical treatment or procedure.
- It creates a civil right of action for violation of these conditions.
- This bill does NOT preclude drug or alcohol testing or any reasonable non-invasive medical testing or treatments.

H.734 (was HD 2390)
AN ACT PROHIBITING COVID-19 VACCINATION
AS A CONDITION OF ENTRY

Rep. Peter Durant - Lead Sponsor

If [your legislator](#)
is on this
committee please
reach out to us!

Referred to [Joint Committee on Emergency Preparedness and Management](#)
- No hearing scheduled

Kelly W. Pease, Joseph D. McKenna, F. Jay Barrows, Alyson M. Sullivan-Almeida - Co-sponsors

- The bill prohibits requiring proof of COVID-19 vaccination for **entry into Massachusetts.**
- It prohibits requiring proof of COVID-19 vaccination for entry **into public buildings and places of public accommodation.**
- It prohibits any private business to require proof of vaccination against COVID-19 as a condition of **entry to the business, or access to employment by such business.**
- It prohibits requiring proof of vaccination against COVID-19 as a condition of enrollment, access to campus or attendance in in- person classes for **public and private schools, colleges and universities.**

Because this bill is specific to COVID-19 vaccine you can really go to town sending them information about the shot and it's harms as you support the bills.

Seeking Sponsor:
**AN ACT PROHIBITING REQUIRED GENETIC MEDICAL PROCEDURES
WITHOUT CONSENT**

- The bill defines genetic procedures in the Commonwealth.
- It prohibits employers from requiring current or prospective employees from undergoing genetic-altering treatments.
- It prohibits schools and colleges from requiring students to reveal genetic information, undergo genetic tests, or undergo genetic-altering treatments.
- It prohibits businesses and other entities open to the public from requiring individuals to reveal genetic information, undergo genetic tests, or undergo genetic-altering treatments as a condition on entry.

We hear a lot of...

"This is Massachusetts, they'll never pass!"

"They're totally partisan and corrupt, why bother?"

"They're just wasting our time and are gonna do what they want anyway."

Why file "good" bills?

- The obvious: to pass bills that will protect bodily autonomy and oppose all mandates so everyone can live, work and go to school.
- Open up opportunities to communicate and educate
- Not just a complaint but a solution
- Good bills help kill bad bills
- If we don't step up "they" will steamroll over us and get everything "they" want.
- You will fail at 100% of the things you don't try

What are we doing?

State house visits as we work to educate MA legislators on health rights issues. Join us in meeting with your legislators.

Covid Vaxx Injury & Coercion Stories

Health Rights MA is collecting stories of injury, loss, and coercion due to the covid vaccines from Massachusetts residents to share with legislators, many of whom do not know about the significant dangers/side effects associated with these shots.

If you experienced coercive tactics that negatively affected your life and family please share your story.

Our legislators need to hear from you!

No identifying information will be shared with legislators without prior written consent. Someone from our team will reach out to see how you are willing to share your story: in print, in video, or in person.

The Faces of Vaccine Injury Massachusetts

Ana's Story - Injury from Covid Vaccine
Age 32
Peabody, MA

"Because I was probably not treated for so long, I can't even walk from my car to a grocery store without chest pain and can't breathe"

After second moderna shot, I got an adverse reaction. I went back was told it was "normal" while still having chest pain. Now because I was probably not treated for so long, I can't even walk from my car to a grocery store without chest pain and can't breathe. After a month of arguing with doctors they finally admit it's possible myocarditis and are running tests. PS I got the jab in May!!!! And they are now treating me finally! The tests for myocarditis came back negative. I kept going for test after test and everything was negative, but I could barely walk and breathe. Finally in February last year (2022) I thought I was having a heart attack. After all day and almost all night in the ER a doctor was giving me a chest ultrasound as I was in pain. The doctor said, "well that's not normal!" I snapped and said I know! Come to find out I had severe muscle inflammation in my upper body and my muscles were so inflamed and left untreated for so long they were pushing against my heart and lung's causing what felt like a heart attack and not being able to breathe. A week later I'm out of the meds the ER doctor gave me and had a follow up with my doctor and was told, "you look fine". I brought to her attention that I was starting to have severe back pain. She gave me a stronger Advil. A few days later I'm trying to sleep and I'm in excruciating pain to the point I'm crying myself to sleep. My cousin and I did some research and looked into turmeric for the inflammation and a muscle relaxer gummy and all-natural muscle relaxer cream. Started taking and using all of that and was starting to feel better but still not 100%. I told my doctor and she replied with, "oh that's strange that's what rheumatoid doctors prescribe." Had another follow up appointment and was told I had an irregular heartbeat. I never heard from the doctor after that. I now finally have a new doctor lined up in March. Now still taking the same stuff I've been taking I've been having joint pain, and slight back pain. Doctor claims that she reported in VAERS.

Christina's story (Daughter Lily) - Injury from Covid Vaccine
Age 21 Months
Dedham, MA

"Within 12 hours of 1st shot, I noticed decreased fetal movement."

Christina told this story many times on Instagram, and it was altered or deleted with no warning.

I had a 20 week scan which showed perfect growth a very healthy normal pregnancy. It went south fast. I had 2 Moderna shots at 30 and 34 weeks into my pregnancy. Within 12 hours of 1st shot, I noticed decreased fetal movement. Also, reported decreased fetal movement to my midwife after the second. 4 days after the second shot, ultrasound showed that the baby stopped growing at 30 weeks. I then went through many tests all resulting in zero explanation to my baby's lack of growth. At 35 weeks, something felt wrong, and I went to the ER and found that the amniotic fluid was low when 24 hours prior it was completely normal in an office visit. A cesarean birth was done right away with baby in NICU for 18 days. My placenta was also sent to pathology and report shows that it stopped growing at 30 weeks concluded no other causes to support any other reason for Lillian's IUGR and even mentioned that it is vax related. Many tests have been done since to try and explain Lillian's poor growth with little to no explanation as to why. Aside from, being in a constant state of ketosis and weighs only 20lbs at almost 2 years old. Further testing has shown she has genetic mutation that the doctors at Children's Hospital have not seen prompting for further testing. Which continues to show no explanation to why Lillian cannot grow or gain. My daughter isn't even two years old and has been poked for lab work more than 200 times. One of the doctors that backed us and supported us are no longer employed at Children's hospital. He was vocal and supportive when others thought he was crazy. He spontaneously retired a month after agreeing Lillian's issues could likely be caused by me receiving the vaccine during pregnancy. I have been gas lit many times not just by doctors but as well as v safe themselves. I spoke with V-Safe a year ago and they asked me not to share my story on a public platform. As well as doctors within Boston children's hospital, so that it wouldn't deter other woman from getting the vaccine. A vaccine v safe themselves has admitted to not having enough data to truly determine the safety and ethics for pregnant woman to receive during pregnancy.

Collecting Stories

- **The Faces of Vaccine Injuries Massachusetts published booklet**
- **Faces of Vaccine Injury Lobby Day in May - People can share their stories and meet with their legislators.**
- **Bringing people who have been harmed face-to-face with their legislators**
- **Giving people the courage to speak up knowing they are not alone**

If you have a story of covid vaccine injury, loss or coercion it is so important that you contact your legislators directly and tell them. Ask them to help you.

[**HealthRightsMA.org**](https://HealthRightsMA.org)

The Faces of Vaccine Injury Messaging

- Vaccine Injury is Real and it's time to talk about it.
- Acknowledgement is the first step
- The COVID-19 vaccine is creating a **MASSIVE PUBLIC HEALTH CRISIS**
- Vaccine Injured need help and they are not getting it.
- We need to stop this from continuing to happen especially to our children
- These stories are being censored

HealthRightsMA.org

WHAT DO WE NEED TO SUCCEED?

Massachusetts has approximately 7 million people.

If just 3% took action to protect health freedom that would be 210,000 people!

The video clip perfectly illustrates what we need!

EVERYONE

Pick up the phone and call or send an email

Calling is best. Ask to speak to head of constituent services. If you leave a message, ask them to call you back. **Acknowledge and thank the bills sponsors and co-sponsors!**

Tell them you are concerned about government mandates related to Covid that infringe on your right to make healthcare decisions for you and your family, including whether or not to get a vaccine. Tell them that every person has a fundamental right to bodily autonomy, and that you want them to **do something** to stop government overreach and discrimination against people based on their health choices.

Personal stories make an impact: **If you have a story about vaccine injury or loss, it is very important that they hear from you directly. If you were coerced and lost your job, career or access to education, it is very important that they hear from you directly.**

If willing, ask for an in person meeting to discuss legislation that would protect rights to make your own health decisions.

The screenshot shows the Health Rights MA website. At the top left is the logo, which consists of a blue dome icon above the text 'HEALTH RIGHTS MA'. To the right of the logo is a navigation bar with links: 'Home' (in red), 'About', 'Share Your Story', and 'Resources' (with a dropdown arrow). Below the navigation bar is a yellow banner with a dark blue header that reads 'Monday March 13th 7:30pm-8:30pm'. The main text in the banner says 'COME LEARN ABOUT:' followed by a bulleted list: '• Health Rights MA - Who we are and what we do', '• Update on MA Health Freedom Bills (SD2014& HD2390)', '• Future plans & what YOU can do to help (We can't do it without you!)', and '• Q & A'. Below the list is a dark blue button with white text that says 'Registration Required'. Below the banner is a section with the heading 'New Protective Health Freedom Bills Filed!' and a red button with white text that says 'TAKE ACTION NOW!'. At the bottom is a dark blue banner with white text that says 'Good Bill Alert!' followed by 'SD2014' in yellow and 'An Act Relative' in white. Two red arrows are overlaid on the image: one pointing from the left towards the 'Home' link, and another pointing from the left towards the 'TAKE ACTION NOW!' button.

I reached out and I never heard back. Now what?

- If you don't hear back within a few day to a week, follow up. Call or email again and put "**2nd Request**" in the subject line. If you still don't hear back, "**3rd Request.**"
- They may ask to meet on zoom. Tell them you'd really like an in-person meeting at the state house or the in the district and ask for next available dates.
- Please follow up with Health Rights MA by emailing hello@healthrightsMA.org and let us know: if you received a response, if you were able to get a meeting, if you would like someone from HRMA to attend with you, or need coaching or materials.

We are not giving up and we are not going away!

WHAT DO WE NEED TO SUCCEED?

- We need to find more experts that can talk with legislators: doctors, nurses, geneticists, scientists, attorneys, etc. to give expert testimony and join our team or create their own legislative teams.
- We need help from constituents (THAT'S YOU!) to get meetings. You can set up your own meetings or we can attend with you. The more meeting requests they get, the better.
- We need to share as widely as possible the form to collect COVID vaccine injury and coercion stories in Massachusetts: HealthRightsMA.org
- We need to build public awareness of the medical freedom bills - Sign up for the HRMA email list at HealthRightsMA.org
- We need to build a pool of Constituent Liaisons to contact legislators; sign up on the contact us page.
- **DONATIONS! Please consider either a one-time or recurring donation.** Recurring donations are great because we can plan and budget. We have some major expenses coming up on top of our regular operating costs. [DONATE HERE](#).
 - We need to print 400 copies of The Faces of Vaccine Injury 60+ page book (\$1500-\$2000)
 - Education packets for each legislator (\$500)
 - 2 Events which will require printing, catering, AV costs, video post production, parking & transportation costs (??? 3000+)
 - We'd love 100+ more copies of Ed Dowd's Book **Cause Unknown**. (\$2000)

Health Rights MA—a volunteer-run, non-profit, 501(c)(4) organization—is promoting legislation to protect fundamental health freedoms in Massachusetts. We are working with attorneys and other health freedom organizations across the country as part of the [Right to Refuse Project](https://RightToRefuse.org). Right to Refuse is a national campaign to help state organizations and grassroots advocates connect for the purpose of passing state laws that protect the rights of individuals to make their own health decisions.

As you can see from the graphic below there is a huge citizen-driven movement to pass protective health freedom legislation across the country. HELP US TURN MASSACHUSETTS GOLD!

We have already filed 2 bills and are working on filing a 3rd. (Updated 2/3/2023)

- **FILED! Bodily Autonomy: BILL SD2014 [An Act relative to bodily autonomy and family integrity](https://www.malegislature.gov/Bills/2014/SD2014)** — This bill begins "No person shall be compelled by law to acquiesce to medical treatments or procedures, collection of specimens, or sharing of personal data or medical information" Sponsor: Senator Patrick O'Connor Patrick.OConnor@malegislature.gov (617) 722-1640
- **FILED! NO COVID vaccine as condition of entry: BILL HD2350 [Representative Peter Durant](https://www.malegislature.gov/Bills/2020/HD2350) filed his bill from the previous session: [An Act prohibiting COVID-19 vaccination as a condition of entry](https://www.malegislature.gov/Bills/2019/HD2350)** This is an excellent bill that, while limited to the COVID-19 vaccine, would protect college students along with everyone else in MA! Sponsor: Representative Peter Durant Peter.Durant@mahouse.gov (617) 722-2000
- **No Genetic Procedures without consent:** We have drafted a bill that would protect people from any mandated medical procedures that could alter human genetics without consent. Health Rights MA is currently seeking a sponsor.

If you have freedom group that get's together and you would like someone from Health Rights MA to come and speak to your group please reach out to hello@healthrightsMA.org

Talking Points

Government does not own my body - All people have the fundamental right to make their own health decisions. The government does not own our bodies. I make my own health decisions and that will never change. What can you do as my legislator to stop this overreach of government encroaching on my privacy and my rights to my own body?

We should be protected by

Nuremberg Code 21 U.S.C. Section 50.23 and 50.24

Constitution (site ref)

MA Constitution (site ref)

Patient Bill of Rights

Need to amend governors powers. In spite of constitutional protections our rights are being trampled because of governors health emergency powers that never should be given so broadly (after 9/11). How you can help to rectify and protect people from this massive overreach into their lives. How can we amend the governors powers?

Right to Opt out of medical industrial complex - protect Complementary and Alternative Health - Right to access the information and choose own treatment path. A large percentage of the population uses Complementary and Alternative Health care practitioners and have opted out to of allopathic medicine and pharmaceuticals as their path for health and healing. How do we reconcile this? Do I have to leave the state? Or else what? What can you do to protect me?

Doctor patient relationship

No medicine one size fits all

Loss of trust in PH - Corruption/Capture of agencies

Censorship

Discrimination - Creates a two tier system

Coercion is not consent

- Employment
- Education, especially College Students!!!
- Sport and Entertainment

Coercive Tactics Used

Bribery and Incentive, tax payer dollars

History shows Science/Medical orthodoxy often wrong -

Thalomid babies, Tuskegee, Opioid Crisis

Legislator's job to protect people and regulate corporations, not protect corporation and regulate people

Massive Abuse of Taxpayer dollars

Contract Tracing - Privacy & Surveillance

Other countries - around the globe picture

Other states across the country

COVID Vaccines:

No Liability

Not effective - does not stop transmission

No Safe - Massive Injury and Death

Injured can't get help

People lost jobs and education rather than get vaccines

Mass exodus from State

Mass exodus from public schools

EFFECTIVE INTERPERSONAL ADVOCACY

- Be calm, deliberate, polite, non-reactive; assume goodwill
- Meet people where they are; no two conversations are the same
- Understand your audience: provide context, overview; don't use jargon; explain acronyms; try not to get too detailed; relate back to the bills
- Be attentive to words, nuance, expression; engage in conversation; ask questions!
- Making fewer good points is often better than making a lot of points, no matter how logical or persuasive
- Follow up with a short thank you note and, perhaps, some information relevant to topics you discussed during the meeting. Try to keep the conversation going.

Thank you!!!

Health Rights MA

Full Bill Text

SD2014 An Act relative to bodily autonomy and family integrity - this is formerly bill S1122 with some improvements.

LINK: <https://malegislature.gov/Bills/193/SD2014>

Sponsored by Patrick.OConnor@masenate.gov

(617) 722-1646

SD2014 An Act relative to bodily autonomy and family integrity

SECTION 1. Chapter 111 of the General Laws, as so appearing, is hereby amended by inserting the following new section:

“Section 183A.

(a) Definitions - The following words used in this section shall have the following meanings unless the context clearly requires otherwise:

“Non-invasive”, a test or treatment in which the body is not penetrated or entered by a needle, tube, device, swab, or scope, or one in which no substance is administered orally or otherwise.

(b) No person shall be compelled to acquiesce to medical treatments or procedures, collection of specimens, or sharing of personal data or medical information. A person’s fundamental rights including privacy, travel, and speech afforded under the United States Constitution shall not be infringed upon to impede the making of decisions for themselves or for their dependents, including, but not limited to, decisions about health and medical care, including complementary and alternative healthcare services, education, employment, travel, and lifestyle preferences.

(c) No employer shall decline to hire, or terminate the employment of, a person solely on the basis of the person’s choice to engage or not engage with a medical treatment or procedure. A person whose rights have been violated by this act may bring action for (i) an injunction against any further violation; (ii) appropriate affirmative relief, including, but not limited to, admission or reinstatement of employment with back pay plus 10 percent interest; and (iii) any other relief necessary to ensure compliance with this Act.

Unless otherwise prescribed, any person or official who willfully violates a provision of this chapter is in violation of Title 42 USC 1983, and remedies may be pursued to the fullest extent of the law.

(d) Nothing in this section shall preclude drug or alcohol testing or any reasonable requirement for non-invasive medical testing or treatments, such as requiring a pilot to undergo a vision test or wear corrective lenses while piloting an aircraft.

SECTION 2. This act shall take effect 60 days after its passage.

An Act prohibiting COVID-19 vaccination as a condition of entry

SECTION 1. Chapter 111 of the General Laws is hereby amended by adding the following section:-

Section 244. Notwithstanding any general or special law to the contrary, the commonwealth shall not require proof of vaccination against COVID-19 as a condition of entry to the Commonwealth.

Notwithstanding any general or special law to the contrary, the commonwealth and all of its agencies, authorities and political subdivisions shall not require proof of vaccination against COVID-19 as a condition of entry to a public building.

Notwithstanding any general or special law to the contrary, no public or private elementary school, secondary school, high school, charter school, college, university or other post-secondary institution of higher education shall require proof of vaccination against COVID-19 as a condition of enrollment, access to campus or attendance in in-person classes.

Notwithstanding any general or special law to the contrary, the commonwealth shall not require any private business to require proof of vaccination against COVID-19 as a condition of entry to the business, or access to employment by such business.

SECTION 2. The first paragraph of section 92A of chapter 272 of the General Laws, as appearing in the 2020 Official Edition, is hereby amended by adding the following sentence:-

No owner, lessee, proprietor, manager, superintendent, agent or employee of any place of public accommodation, resort or amusement shall, directly or indirectly, by themselves or another, require proof of vaccination against COVID-19 as a condition of entry to a place of public accommodation, resort or amusement.

No unwanted Genetic Procedure - An Act updating anti-discrimination laws in the Commonwealth

SECTION 1. Section 1 of Chapter 151B of the Massachusetts General Laws shall be amended by inserting the following definitions:

23. For purposes of this Chapter, DNA includes: (a) deoxyribonucleic acid, ribonucleic acid, and chromosomes, which may be analyzed to detect heritable diseases or conditions, including the identification of carriers, predicting risk of disease, or establishing a clinical diagnosis; or (b) proteins, enzymes, or other molecules associated with a genetic process, which may be modified, replaced in part or whole, superseded, or bypassed in function by a health or medical procedure.

24. The term “genetic procedure”, shall mean any therapy, treatment, or medical procedure that adds, removes, alters, activates, changes, or causes mutation on an individual’s DNA; or replaces, supersedes, or bypasses a normal DNA function.

SECTION 2. Subsection 19 of Section 4 of Chapter 151B of the Massachusetts General Laws shall be amended by inserting at after subsection 8, the following language:

(9) require an employee or prospective employee to undergo a genetic procedure.

SECTION 3. Subsection 19 of Section 4 of Chapter 151B of the Massachusetts General Laws shall be further amended by inserting at the end thereof the following language:

(b) It shall be unlawful discrimination for a primary or secondary school or any college or university to require a prospective or current student to:

- (1) disclose genetic information;
- (2) undergo a genetic test; or
- (3) undergo a genetic procedure.

(c) It shall be unlawful discrimination for a business or public accommodation to require for entry or services that a person:

- (1) disclose genetic information;
- (2) undergo a genetic test; or
- (3) undergo a genetic procedure.
